ABOUT US

Weiyuanchuan International Trade Co., Ltd. Since 1996, Weiyuanchuan has pioneered advanced architectural surface solutions from its 50,000+ sqm vertically integrated manufacturing hub in Zhengzhou, China. Equipped with 15 automated production lines, our ISO 9001-certified facility delivers industry-leading capacity of 30 million wallpaper rolls and 500,000 sqm of wall panels annually, while maintaining SGS-validated eco-compliance (REACH/RoHS). Strategic partnerships with Alibaba, Amazon, and DHL ensure seamless global distribution, supported by pre-stocked overseas warehouses in key markets for rapid order fulfillment.

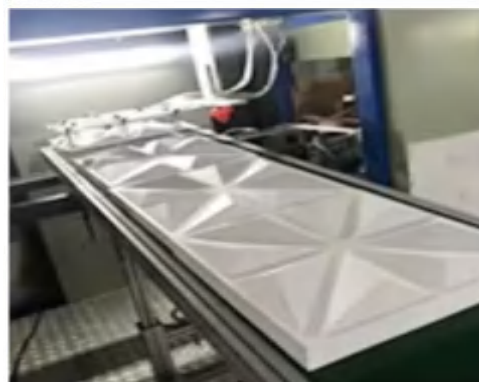

Our precision-engineered portfolio combines aesthetic versatility with technical rigor. From self-adhesive PVC wallcoverings (48-hour moisture resistance) to fire-rated WPC/PS panels (EN 13501-1 Class B certified), we empower architects and developers with surfaces that marry design flexibility and performance. The FastTrack Custom Program enables bespoke digital prints in 15 days – including Pantone color matching and BIM/CAD integration – while our proprietary GreenShield Technology ensures near-zero VOC emissions ($<50 \mu\text{g}/\text{m}^3$) for healthier interiors.

Backed by an 8-language support team and 18-month product warranty, we serve commercial and residential clients across 50+ countries through a consultative partnership model. Whether optimizing costs for hotel chains through bulk WPC cladding solutions or enabling boutique designers with small-batch custom murals, our agile engineering and DDP logistics expertise minimize project timelines by 30% on average. Connect with our Global Solutions Team at 18137187029@163.com or +86 181 3718 7029 to explore how we can transform your next space – sustainably and at scale.

Weiyuanchuan International Trade Co., Ltd. is a professional wallpaper manufacturer and wholesale wallpaper vendor to many global brands. We ' ve successfully served various wholesalers, fabricators,architectural,contractors,architects, designers and studios to fulfil their projects of the building of wall claddings, backgrounds, ceilings and more surfaces.
